

Portable lithium iron phosphate batteries are widely used in our life. For example, when we travel in the suburbs, they are used for battery ovens or electric rice cookers, charging laptops and mobile phones, medical first aid, car emergency start, lawn mowers and various emergency power supplies. It is an ideal companion for family cars and families.

### lifepo4 battery advantages:

1. High charging and discharging efficiency
2. lifepo4 battery high safety performance
3. Lifepo4 battery long cycle life
4. Good temperature performance
5. Lifepo4 battery High capacity
6. No memory effect
7. Lightweight of lifepo4 battery
8. Lifepo4 batteries are environmentally friendly

Type	Rated power	Length	Width	Height	Approx.	Rated output		USB-A Output
	(W)	mm	mm	mm	Kg	Voltage		Voltage
GT200	200	242	88	205	4	100V-120V	220V-240V	5V,9V,12V,15V,20V
